*Surveillance is the monitoring of the behavior, activities, or other changing information, usually of people and often in a surreptitious manner. Surveillance most usually refers to observation of individuals or groups by government organizations,*

Every one wants to make their Life enjoyable, safe and secure. Prevention is always better than cure so why not take action today before it's too late.

The word surveillance may be applied to observation from a distance by means of electronic equipment (such as CCTV Cameras, Jammers, Spy phone), or interception of electronically transmitted information (such as Internet traffic or phone calls, GSM Interceptor). It may also refer to simple, relatively no- or low-technology methods such as human intelligence agents and postal interception.

But Due to Digital Security and Surveillance Products, We can make our Life enjoyable, safe and secure. Surveillance is the monitoring of the behavior, activities, or other changing information, usually of people and often in a surreptitious manner.

Surveillance most usually refers to observation of individuals or groups by government organizations, but disease surveillance, for example, is monitoring the progress of a disease in a community

If you have children, valuables, or a spouse with wandering eyes, than it's just plain stupid NOT to see what happens after you leave the house—especially now, with spy cams so affordable and easy to use!

Spy on your significant other with 100% privacy and secrecy. If nothing is going on, than no one will ever know you were watching... but if something IS going on, than at least you'll know the truth!..

Cell phone jammers transmit radio signal that blocks cell phones from communicating with cellular base stations.

The uses of cell phone jammers as a part of RF Jamming system, intended to block the ability of terrorists to detonate IEDS and bombs using cell phones.

Mobile phone jammer can block all cellular standards simultaneously: GSM, UMTS, CDMA, TDMA, iDEN, PCS and more.

Surveillance is very useful to governments and law enforcement to maintain social control, recognize and monitor threats, and prevent/investigate criminal activity.
