

Learn Street Hypnosis Protocol, Conversational Hypnosis And NLP

Igor Ledochowski calls it `The Power Of Conversational Hypnosis`. How to quickly and easily put people under your spell and get them to do what you want?

Jan. 12, 2010 - [*PRLog*](#) -- Igor Ledochowski got many of his ideas a long time ago when he saw a rebel psychiatrist in a wheel chair speaking to a bunch of doctors, psychologists, and therapists.

There are hot news speaking about hypnosis (or hypnotisis), unless you've been living under a rock you'll know that the power of NLP and Hypnosis have radically changed peoples lives...

Is NLP Easy to Learn vs Hypnosis?

NLP is pretty easy to learn BUT mastering everyday conversational hypnosis has always been a serious problem.

Do you know that Dr. Milton H. Erickson was the undisputed master of hypnosis (and the source of a surprising number of patterns in NLP as well) ?

The thing is very few people have ever been able to master hypnosis like Erickson, let alone be able to successfully teach it to others.

Especially conversational hypnosis.

That is FINALLY about to change with the brand new release of "The Power Of Conversational Hypnosis".

It's by genius hypnotist Igor Ledochowski, the author of the "Deep Trance Training Manual" and a world renowned Hypnotherapist trainer.

It's the most ADVANCED course ANYWHERE on conversational hypnosis.

Dr. Joe Vitale loves this course (The Power Of Conversational Hypnosis)

In fact here's what hypnotic marketer, certified hypnotherapist and star of the NLP inspired hit film "The Secret" says about it...

"I didn't believe this material would be that good, but it turns out to be a breathtaking course on using hypnosis in everyday conversation.

"I've never seen or heard anything this complete, powerful, or convincing.

"I love it."

Dr. Joe Vitale -

One of the reasons Dr. Joe Vitale loves this course is because he discovered secrets like...

- * The entire Conversational Hypnosis Protocol, Igor's most closely held and powerful teachings.
 - * The powerful "hypnotic triple" command that SWAT teams use to force compliance...even in a fire-fight with hardened criminals.
 - * How an instant rapport technique will get even total strangers to open up to you...reveal their inner longings...and give you all the clues you need to persuade them to do as you say.
 - * The conversational way to get a sales prospect to imagine the intense feelings of owning what you are selling, so they naturally feel compelled to buy right now!
- In fact you can help them intensify the feelings so strongly that all objections simply melt away.
- * The easiest way to join the elite group of "hypnotic persuasion experts" by using their secret patterns for influence...(it's easier than you think).
 - * Create an instant trigger to unleash your targets deepest desires...and how to point them in your direction...(Igor's innovative techniques are more refined and more powerful than any other).
 - * A simple trick that creates amnesia for any objection your target may have to your suggestion...they simply forget to remember what it was that might have stopped them from following your suggestions.
 - * What it means when your target "talks with their hands" and how to use their gestures to literally getinside their head.
 - * How to know if a target is "talking to themselves" with internal dialogue...and how to join that dialogue so your voice seems like it comes from inside their own mind!

And that's BARELY scratching the surface...
