

Stay healthy with Honey and Bee Pollen!

Source: Sunflower Organics

Dated: Jan 25, 2010

Would you like a complete raw food that will provide you with 100% of the vitamins, minerals, protein and enzymes you need to give you energy and increase your stamina? Ambrosia is a combination of wildflower honey and fresh bee pollen.

Stay healthy with Ambrosia honey!

Attention hikers, backpackers, bikers and campers. Would you like a complete raw food that will not spoil and that you can take with you wherever you go and that will provide you with 100% of the vitamins, minerals, protein and enzymes you need to give you energy and increase your stamina? Ambrosia is a combination of raw wildflower honey and fresh bee pollen whipped together. Each 8 oz. jar contains almost 30 grams of bee pollen; each 16 oz. jar almost 60 grams. No bacteria grows in honey so it keeps the bee pollen fresh. No need for refrigeration. The enzymes in the honey break down the pollen to make it more readily digestible. It is absolutely delicious. We have three flavors: Ambrosia, Cinnamon Ambrosia and Spicy Ginger Ambrosia. Ambrosia is a blend of raw California wildflower honey and bee pollen. There are over 60,000 mgs. of fresh bee pollen in each 16 oz. bottle of Ambrosia. Also available in 8 oz bottles. Cinnamon Ambrosia is a blend of raw California wildflower Honey, bee pollen and certified organic powdered cinnamon. Spicy Ginger Ambrosia is a blend of raw California wildflower Honey, bee pollen, certified organic powdered cinnamon and powdered ginger. For more information, visit our website <http://www.honeybeepollen.com> or our blog <http://www.wildflowerhoney.wordpress.com>
