SAN DIEGO ? February 8, 2010 ? In her new book, *Fight Your Medical Insurance Nightmares!!* Independent author, Linda Meckler, says “Let me show you how.” Meckler takes the Consumer to a new level of understanding medical insurance companies, with proven methods to get medical bills paid without lengthy delays.

Meckler deciphers the how’s and whys of medical insurance and shows the consumer that frustration is not the only option when faced with erroneous, exorbitant, and denied medical bills.

Fight Your Medical Insurance Nightmares!! offers a better understanding of medical insurance terminology that is effective when speaking to medical providers and medical insurance companies.

Featured: 10+ reasons a medical bill is denied for payment.

Examples include a copy of an appeal letter that shows a consumer’s \$26,000 medical bill. The consumer fought –and won – the result? The bill was written off and the consumer paid zero.

Medical insurance and its convoluted care packages is such a complicated subject that the government has been fighting for months on how they are going to change medical care for everyone. “What terrifies me is to have this important legislation in the hands of people who do not understand the medical insurance billing coding system,” says Meckler.

Medical insurance billing was Meckler’s career industry for over 25 years. Part of her job was to field telephone calls from irate patients about their medical bills. Her insights and deep understanding of the controversies and patient cases puts *Fight Your Medical Insurance Nightmares!!* “Let Me Show You How” at the top of the medical advocacy list.

Meckler is also the author of the children’s series *Ghost Kids Trilogy* for ages 8-14 to adult, and a prolific author of electronic books and online articles. She is a public speaker and longtime member of Toastmasters International. www.linda.mecklerauthor.com
