

Lose Tummy Fat With Tummy Tight A New Do-It-At-Home Wrap to Shrink Pot Bellies

Lose tummy fat with Tummy Tight the new do-it-at-home wrap by Beauty Be Natural, designed for a quick and easy way to safely trim inches from the waistline, shrink pot bellies, and melt away love handles and muffin tops.

Feb. 18, 2010 - [PRLog](#) -- Clearwater, FL - Lose tummy fat (<http://www.beautybenatural.com>) with Tummy Tight the new do-it-at-home wrap by Beauty Be Natural, designed for a quick and easy way to safely trim inches from the waistline, shrink pot bellies, and melt away love handles and muffin tops.

Designed as an all-natural, non-surgical answer to invasive and expensive tummy tucks and liposuction, Tummy Tight (<http://www.beautybenatural.com/tummy-tight>) consists of a wide compression bandage which the user moistens with a solution of saturated salts and minerals, then snugly wraps around the midsection and hip area. After about 60 minutes the bandage is removed, revealing a tighter and slimmer appearing tummy and waistline.

"This is a quick, all natural, do-it-yourself home treatment for when you can't quite button your favorite jeans," says BeautyBeNatural.com spokesperson Vicki Southard.

Southard says the 60 minute tummy tightening treatment can be done any time of the day or night, even while watching TV, reading, jogging, or shopping. "Most people notice visible tummy tightening after the very first wrap, but you'll get the best results by wrapping the midsection every other day until the desired reduction is achieved," says Southard.

Southard says the custom compression bandage (made of soft cotton and non-latex elastic fabric), can be adjusted by the user for comfort and the secret to the Tummy Tight system's effectiveness is the doctor formulated all natural salt, mineral, and herb serum used to soak the compression fabric before wrapping.

"The Tummy Tightening Serum –which is natural and non-toxic – is doctor formulated to compress and detoxify the tissues," says Southard.

Those using Tummy Tight for 60 minutes every other day will typically notice their waistline appears 1 to 2 inch smaller after about a week. "It's a safe, easy, and effective process for spot reduction that really does work --something everyone should try before resorting to surgery or liposuction," says Southard.

Southard says she took the inspiration for Tummy Tight from friends who complained about weight gain around the middle but also remarked they didn't have enough time to get to the gym or a figure salon to do something about it.

"The moment you get the kit you can wrap it on and start looking thinner," says Southard. "Now there are no more excuses for those muffin tops poking out over your beltline."

Lose tummy fat (<http://www.beautybenatural.com>) with the new Tummy Tight home kit by Beauty Be natural, is being offered with a money back guarantee at an introductory price of \$99.
