Pre Sale FrogPad succeeds funding manufacturing through social networking

NEWS FROM FROGPAD

HOUSTON (March 21, 2010) –FrogPad, Inc, the leading innovator in productive mobile data entry technologies, is using social networking and a loyal customer base to fund manufacturing. FrogPad is the leading keyboard for Tablets, and also has multi touch IP for a downloadable keyboard on iPhones© and future multi touch mobiles and tablets. <http://www.youtube.com/watch?v=0KrRX-M8Vdk>

FrogPad, incorporated in 1999, was hit hard by the ‘economic meltdown’. Even though financially sound, FrogPad struggled to find funding, and after spending a year of Biz Plans, Pro Formas, was offered money by Vulture Capitalists taking 70% of the company or ‘Hard Money’ at 20% interest plus Froggie’s first born tadpoles. Truly the Loan Shark way of doing things! And Froggie wants to keep hopping even in these difficult economic times.

FrogPad has thousands of people emailing and over 1,500 anxiously waiting to order a FrogPad. These are not purchase orders, it is "onesy, twosy" orders, which cannot be taken to the bank. This week, using social networking, we launch a pre sales program to support and begin production. The first 3 days raised \$10,000 in orders. And there are 20,000 Veterans who have lost the use of a hand or arm, many who have benefited from using FrogPad. Video Tablet and iPhone downloadable keyboard YouTube SoftFrog on Tablet
