eSalesData Launches eCommerce solution for start ups and Small to Medium size businesses

Wilmington-March 17, 2010: eSalesData announced that the new release of its eCommerce platform makes it easier than ever for start-ups and SMBs to improve the effectiveness of their eCommerce sites through ecommerce application.

March 26, 2010 - *[PRLog](http://www.prlog.org)* -- eSalesData sets its focus on gaining customer contact and visibility. eSalesData is an ideal solution for start-ups and SMBs looking to sell on the Internet. eSalesData provides everything that customer need to create a successful and professional eCommerce solution on a scalable platform designed to grow with business.

If you are selling on the Web, Keep it simple. Online shoppers are ruthless and will pull the plug on a purchase if they run into the slightest glitch. Our ecommerce software is built keeping customers usage in mind said Mark Stevens, VP, eSalesData.

After successful completion many ecommerce projects, we can certainly boast about our expertise over creating the most usable ecommerce websites. Custom, usable and company specific Ecommerce solution gives significant advantage over conventional off the shelf ecommerce websites. Set-up the ecommerce solution you need in minutes, without development effort or anything to install. Create your items once and sell through multiple marketplaces without complication. Sell products from your own free branded online store and pay no hosting fees, listing fees, or final value fees! Manage every step of the online sales cycle — inventory management, marketing, fulfillment, customer communications and more. Manage your entire online business from one easy to use unified ecommerce platform. Maximize your profits with Vendio Applications
