Team Method Guitar

Team Method Guitar has been designed by Ben Edwards who designed Jamorama Guitar Course. Ben is a seasoned guitarist and above all a professional guitar teacher who has been teaching online for over 4 years now and has taught over 35,000 students till now. After listening to the feed backs of so many students that he has worked with, he understood that no one teacher can teach all the necessary skills and different styles as compared to a bunch of them with expertise in varied styles and genres. And that thought has ultimately took shape in the form of 'Team Method Guitar' online guitar course.

Team Method Guitar Course Highlights

* You will start learning right from the BASICS namely Learning Chords, TABS and Rhythm with the help of 148 integrated video lessons.

* You will learn to 'Play-By-Ear'. That is you will be learning the technique to play by just listening to a band playing live or in a radio and instantly play along with them. You would be able to recognize the chords and progressions that they are playing and play along with them almost instantly.

* Team Method Guitar has included another useful and cool tool called 'Chord Reference Library' which as 72 pages of high resolution chord diagrams, plus 216 chord variations AND a chord progression for each of these 216 chords.

* Once you are comfortable with the basic concepts of guitar, you will be taught advanced techniques where you will be learning the theory and process of playing lead guitar from 43 step-by-step video lessons. You will also learn much more advanced techniques like hammer ons, pull offs, whole bends, half bends, step bends, legato, tapping and much more.

* Along with the lead guitar techniques, you will be also learning Acoustic Guitar techniques like finger picking and palm deadening. The best part is that they have included an 'acoustic version' of 26 of their Jam Tracks to practice your acoustic guitar lessons.

* To take your LEAD guitar skills to a next level, you will be taught how to utilize the entire FRET-BOARD of the guitar to play melodious and impressive leads all over the neck of the guitar, which is called the CAGED Learning System. They have laid out 12 step-by-step lessons that will teach you to play ANY style of lead with ANY style of music in ANY musical key.
