

Ultrasonic Body Slimming System

Cellulite removal ,body contouring ,skin tightening

April 26, 2010 - [PRLog](#) -- Product Description

Liposuction cavitation machine has the functions of vacuum suctionmotorized intelligent Roller, 40KHz strong ultrasound and LED

light therapy, it is a high-tech micro-computer control Machine that has a excellent efficacy in slimming, body shaping and skin beauty.

Detailed Product Description

1. Three different rolling modes: Back, forth, back and forth
2. 27 deep massage modes: P1-P9+B1-B3
3. 600 different modes according to different rolling direction, rolling speed
4. Ultrasonic wave: 0.4MHz ultrasonic fat dissolving head
5. Low noise technique: High quality air pump with strong pressure and low
6. Vacuum and optical fiber synchronization

Technical parameters

1. Voltage: 110-230V, 50-60Hz
2. Power: 650 W
3. Physics techniques: Mechanical energy /vacuum / optical fiber
4. Load moment: 5000 g. Cm
5. Negative pressure: >500nbar
6. Optical fiber

--- End ---
