How to split/cut Flash FLV videos to several clips/segments without conversion?

Flash FLV Splitter allow Mac users to split/cut large Flash FLV to many small segments/parts without any conversion to other formats so as to share excellent short Flash videos on the Internet.

May 14, 2010 - *PRLog* -- Many video enthusiasts want to split large Flash FLV video file into smaller chunks for editing or sharing only the interesting tidbits on the websharing Internet. However, most programs require you to convert the Flash FLV into another format and then back to FLV, but doing so would mess up the sound. In addition, most programs only supports to split or cut the files into half instead of several parts at an exact time interval.(http://forums.afterdawn.com/thread_view.cfm/552897)

Flash FLV Splitter(http://www.video-web-creator.com-atoz.com/tutorials/8-flash-flv-splitter.html) is the distinctive software designed to split Flash FLV.
