Yasir is also known for Nissan Urvan and Toyota Hilux Vigo minibus based ambulances which are sold on cost basis to NGOs as a way of paying back to the world community.

Yasir Quraishi commented, "our conversion to a CMS based site underscores our ongoing commitment to customer service. <http://www.vigo-thailand.info/> and <http://www.toyota-hilux-vigo.info/> are more inviting, informative and user friendly. Since Thailand is increasingly the only source for diesel pickups and SUVs as new and used Toyota Hilux and since we are Thailand's oldest and largest dealer and exporter our sell-through is so high that we were never able to display our inventory in a timely fashion. Conversion to Joomla CMS system allows us to update our current stock of vehicles in a more timely fashion. Soni has experienced phenomenal growth since its founding in 1911 and has grown from Asia's first dealership to a multinational juggernaut serving its customers in 100 countries with transportation solutions."

Sam Quraishi added, "On the website's simple home page visitors immediately have access to not only the link to the current stock of new and used quality second-hand pickups and SUVs but with a simple click users have the choice to peruse details of our company, information on not only Toyota Hilux Vigo but also Mitsubishi L200 Triton, Nissan Navara, Chevy Colorado, Ford Ranger, Isuzu Dmax, and Mazda BT-50 and

4x4 SUVs as Toyota Fortuner, Mitsubishi Pajero Sport and Isuzu MU7. Customers also have access to information of Honda, Suzuki and Kawasaki motorcycles. The website also plans to include Specials section to announce our discounts, automotive articles section, news section and country by country import information. Another option that kick off from the site's home page take visitors to Contact information."

Jeff Quraishi added: "For 99 years customers have rightly expected great prices, great quality, great selection, great customer service from a family-owned dealer famed for its honesty, integrity, professionalism and low prices. What has contributed to our continual double digit growth is the fact that despite owning 80% of Thai auto export market, we have not grown complacent but continue to serve and listen to our customers and remain focused on serving their long-term needs and continue to refine our products and services to meet their wants and needs and to contribute to their long-term success."
