

## Short Term Trading Strategies That Work

*Short Term Trading Strategies That Work? Thats the problem facing many new traders. Forex is a magnet for some and overwhelming for others who try it, have bad trades and leave through bad circumstance such as poor money management, overleveraging*

**June 6, 2010** - [PRLog](#) -- Short Term Trading Strategies That Work? Thats a good question. Its easy to get overwhelmed by the amount of information out there in the market place.

The idea is to keep trading simple ...after all the market price can only move in 1 of three directiions. Up, down or sideways!

So why do so many traders lose money trading the markets? many traders come and go and the market is full of the littered "bodies" of traders who have come into the markets and failed. I have been fortunate enough to join a community of traders that are making money.

Dont believe me? Go to the website; <http://www.proforexroom.com> and check the monthly results. The month of May was a RECORD month in a month that everyone was glued to the collapsing Euro!

The community is a combination of live chat forum and online webinar with full sound and voice. We can see a live professional trader making trades.

This month PFR or [proforexroom.com](http://www.proforexroom.com) is conducting webinars for new and experienced traders to the currency markets.

"We will be having regular webinars to show case our PFR live trading room. Since inception this year our room has made money for its members ... month after month".

PFR is a live trading room. The webinar will be conducted by Saverio Berlinzani who is head of trading for PFR. Saverio who has 20 years trading experience (see <http://www.proforexroom.com> and click on about Saverio) will be able to answer anyones questions on getting into trading, about the Currency markets, trading the forex markets generally, his approaches and trading strategies.

"This is an ideal oppportunity to ask a seasoned trader questions about trading and the style of trading." PFR said.

"We are aiming to offer the webinar every two weeks" If you want to register simply email your interest to [proforexroom\(at\)gmail.com](mailto:proforexroom(at)gmail.com) and in the subject header state "Saverio webinar".

"Theres no obligation following the webinar, in fact, afterwards you might go away with more questions about your current trading and fine tuning perhaps"

We also offer a free 14 day pass at our website; <http://www.proforexroom.com> and new entrants are

welcome to trial the room for that period obligation free as if they were a fully qualified member.

###

Whether your new to currency trading or a seasoned trader, proforexroom is designed to either teach or follow alongside the traders in the room. Proforexroom is a live currency trading room each day during the European fx session in English & Italian.
