By Shwan Wong

Dated: Jul 24, 2010

Battery-jp.com comes with new AC/DC laptop battery and adapter. This new AC/DC laptop battery and adapter collection is suitable for so many branded laptops.

Battery-jp.com has been launched New AC/DC laptop battery and adapter which are suitable for many branded laptops. It provides battery and adapter for most major laptop brands like ACER, APPLE, ASUS, COMPAQ, DELL, FUJITSU, GATEWAY, HP, IBM, LENOVO, SAMSUNG and more.

This new AC/DC laptop battery and adapter collection comes to provide the highest quality laptop battery with the highest level of service, all in a secure and convenient platform. At Battery-jp.com, one can also get the compatible battery, camcorder battery, digital camera batteries, battery charger (charger), power tools battery, PDA battery, mobile phone rechargeable battery and more.

In some are AC/DC laptop battery and adapter is known as battery charger or laptop battery charger. This AC/DC laptop battery and adapter converts the mains voltage to a lower voltage level and also converts the AC voltage to a DC voltage by a process called rectification. Along with that it also smoothes out any voltage ripple and converts the voltage to the required voltage to power the laptop.

Laptops are built to various stipulations and the power utilization varies accordingly; however, physical attributes also differ between laptops and are not limited to the power socket so Battery-jp.com had manufactured laptop power adapters that supply various connecting tips allowing the adapter to be connected to various laptops.
