*Download the Advent Forex Course by Cecil Robles worth \$2,000 absolutely FREE. My trading associate Cecil Robles has just opened the doors to give away his \$2000 trading course for free - no strings attached!*

**Oct. 29, 2010 - [PRLog](#)** -- Cecil Robles is really giving away his \$2000 trading course absolutely free. No strings attached.

I've actually gone through the strategies and methods myself and I can tell you that this is the real deal. He even shows you how he's managed to conservatively average 7.21% per month (or a lot more for those that want to be a little more aggressive).

Like I said there are no strings attached. He only asks for you email address.

Now I have already anticipated that many of you are going to ask, "why is this guy doing this"?

Well I asked the same thing and this is the answer I got right from the horses mouth!

"I'm tired of the hype and people being taken advantage of by unproven and broken trading methods. I've been successful and I've decided to give back"

What is this Forex Advent Course?

Cecil Robles in his Forex Advent Course will teach you how to make a consistent 7.21% safe return each and every month with low risk by trading less than 10 minutes a night. If you can learn how to make a safe and consistent 7% return each and every month by trading forex less than 10 minutes a night, you are on your way to your financial freedom dream.

You're about to learn:

- \* What The Advent Course is all about and how following the methods can have you safely averaging up to 7.21% per month...
- \* The professional trader's mindset so you can quickly start trading and profiting like a 15 year veteran professional trader... It's important you begin here to break all of your bad habits and misconceptions about the market.
- \* Cecils' Five Advent Trading Models, "The Trend Model, The Momentum Model, The Counter-Trend Model, The Breakout Model, and The Continuation Model." Each model teaches you how to trade through a certain market condition so you're never left guessing... but the true power is that in the end it comes together as one complete strategy.
- \* His insanely profitable "Take Profit" technique that will have you capturing more of the market moves more of the time.
- \* His "Diamond" Money Management Strategy so you can compound your wins super fast and much, much more..."

Cecil has just released two of the most important Models of his course... the Momentum Model and the Breakout Model. This wraps up the technical aspect of the course... but don't worry because it's about to really start to get good. That's because tomorrow he is going to be releasing the final two Modules showing

you his breakthrough “Diamond Money Management” strategy and tying everything together into one complete system.

And if you think this stuff is good just wait until you see what he has coming up on his free webinar on Monday.....

Cecil is about to release his powerful new Forex trading system FXST Pro. In case you don't know who Cecil is, he's the guy who just gave away 5000 copies of his \$2000 Advent Forex system.

There is one catch. In order not to dilute his methods he's only giving away 5000 free courses. Once they are taken that's it. So get one while they are still available.

And yes he will have something additional to offer you once you've gone through his \$2,000 course... but hey I'd take him up on his offer regardless.

Enjoy and make sure to let me know what you think by leaving a comment on his page.
