## Introducing Fragments, Our New Line of Cement Tile Accent Strips

**Los Angeles, CA** -- Meet our newest line of cement tile: Fragments, tiny, tesserae that proudly carry a cement tile pedigree.

**Fragments** is a colorful mosaic accent collection of patterned cement tile re-purposed from the cement tile factory's extras. Each piece, which is first cut into a square or rectangular tessera, is then carefully chosen on how its color and pattern will integrate with the overall theme of the mosaic.

**Fragments** is designed specifically for wall applications. Its mismatched patterns, strong grout lines, and bold colors, are a great choice for a contemporary kitchen, bathroom or accent wall.

Moreover, its versatility comes with many choices, including incorporating **Fragments** into a design as an accent strip for a wall or backsplash. The collection also works well running behind a kitchen counter with other tile, or it can be grouped and framed to create a focal point for a larger backsplash.

Have a specific style or feel in mind? Then consider **Fragments** mosaic tile for a mid-Century remodel, or a modern home with clean lines and neutral palettes that needs color. The Small and Large Square formats are playful and fun for casual, contemporary living. Consider using the Bar Format in a more formal or traditional style since the narrow cuts provide a softer look with its blended pattern.

Expect significant variation in samples and final orders because the remnant tiles, patterns and colors used for each project will differ. This variation makes **Fragments** unique, and each installation truly one-of-a-kind.

In addition to the four colorways available in the **Fragments** collection (Winter, Spring, Summer and Fall), there are also three design-friendly formats: Small Squares with 1.5" x 1.5" tesserae on a 12"x12" sheet; Large Squares with 2"x2" tesserae on a 12"x12" sheet; and a Mosaic Bar with 3/8" x 7-3/4" tesserae on a 12"x18" sheet.
