Hand Painted Ceramic Tile | Cement Tile

Durable, Cement Rustic Spanish Paver Tiles Offer Time-Tested Look

Our new cement Rustic Spanish Paver Tiles offer the rich look of classic clay bisque tiles used throughout Spain, the Mediterranean, and northern Africa for centuries, with the added benefit of durability and craftsmanship of handmade cement tile.

Nov. 15, 2012 - [PRLog](#) -- Los Angeles, CA – Our newest line of cement tile offers not only a classic, time-tested look, but also the durability and craftsmanship of traditional handmade cement tile. Introducing **Rustic Spanish Paver Tiles**.

These pavers have the rich look of classic clay bisque tiles that have been used in Spain, the Mediterranean, and northern Africa for centuries. With these pavers, you get the benefit of cement in their durability and strength, a broader color palette, and sizes and shapes that can be adapted to any décor and environment.

Further, by using our **Rustic Spanish Paver Tiles**, you'll feel good knowing your choice is also good for the environment. Made in the USA, this paver tile collection is made using a high percentage of locally sourced materials, which minimizes transportation impact. Moreover, the cement used for producing these tiles is supplied by an Energy Star Certified factory.

A few square formats also include clipped corners to accommodate decorative accent tiles. Our **Malibu Deco Tiles** are the perfect choice to pair with these Spanish pavers. Use this combination with the smaller 4"x4" formats to make a great looking backsplash or for attention-getting stair risers.

Our **Rustic Spanish Paver Tiles** come in various square and rectangular formats. All tiles are 3/4"-thick nominal thickness. You'll find square formats from 2"x2" to 16"x16"; and rectangular formats from 2"x4" to 8"x16".

Finally, unlike Spanish pavers, these tiles are available in 30 colors and two blends. The colors are available in two styles: solid or flash. The **Rustic Spanish Paver** color palette includes classic bisque colors in terracotta, red and brown that provides traditional style. The Classic style takes its cue from clay bisque that would be historically used to make Saltillo tile, brown Spanish pavers, and red clay tiles. For a more contemporary look, choose from our extensive collection of 24 colors with the Premium color palette, which includes subtle greys, green, plum, rust and tan.
