

## STW Technic to Showcase Innovative Electronics and Telematics Solutions at AG Connect 2013

*STW Technic, a premier manufacturer of mobile controllers and measurement technology for agriculture, will be exhibiting at AG CONNECT 2013 to showcase innovative telematics, controllers, I/O modules and other solutions for the Agriculture Industry.*

**Jan. 28, 2013 - [PRLog](#)** -- Norcross, Ga. **STW Technic**, a premier manufacturer of mobile controllers and measurement technology for agriculture, will be exhibiting at **AG CONNECT 2013** to showcase **innovative telematics, controllers, I/O modules and other solutions for the Agriculture Industry.**

Controllers, I/O modules and Telematics units from STW (<http://www.stw-technic.com>) have attained a leading role in the agricultural industry due to their rigorous testing, high quality German engineering and unmatched flexibility. Says Bob Geiger, President, STW 'At STW, we put a lot of emphasis of finding out exactly what our customers need so that we can provide tailored solutions for them. STW has had much success in the agriculture sector, and being at AG Connect offers us another opportunity to meet with and learn from our customers'.

As the Agriculture sector ramps up use of technology to increase productivity and yield and reduce wastage, customers and industry members are invited to come to the **STW booth to learn about solutions such as machinery surveillance, fault identification in agriculture machine, productivity and yield optimization.** You can also learn more about STW's solutions in controllers and measurement technology for Agriculture on the STW website (<http://www.stw-technic.com/industries/agriculture/>).

AG CONNECT Expo & Summit 2013 is being held in Kansas City, Missouri this year from January 29th to 31st .

**STW will be in booth 2401 in the German Pavilion.**

**About STW Technic:** STW Technic, LP (<http://www.stw-technic.com>) is the U.S. subsidiary of STW GmbH, a German electronics company specializing in mobile applications. STW is the European market leader in freely programmable controllers for working machines and provides products to over 200 equipment manufacturers worldwide.
