Cardiovia: GOLD – Consumer’s Choice, New Supplements

Cardiovia is a new heart health supplement that offers a natural way to address high cholesterol, which is a risk factor for heart disease. Cardiovia is the first and only probiotic that is clinically proven to reduce cholesterol by 11.6% and reduce inflammation (C-reactive protein). Cardiovia helps maintain healthy cholesterol levels in two ways: by reducing the amount of cholesterol the body produces, and by reducing the amount of cholesterol absorbed from food. Cardiovia has been voted the No.1 most recommended probiotic by Cardiologists in a 2013 Symphony survey. As a probiotic, Cardiovia also offers gastrointestinal health benefits. In addition, Cardiovia has been shown to increase Vitamin D levels by up to 25%. For more information, visit [Cardiovia.ca](http://cardiovia.ca/ca/) (<http://cardiovia.ca/ca/>).
