

Massive Price Reduction on HPC Hospitalist and Emergency Procedures CME courses

Early Registration Discount for ALL 2014 Hospitalist and Emergency Procedures CME courses is now \$150 for physicians and \$200 for nurse practitioners, physicians assistants, medical students, resident physicians, and military physicians

VENTURA, Calif. - May 14, 2014 - [PRLog](#) -- HPC is committed to your success and we strive to improve your procedural skills. We have been training physicians and midlevel providers working in the ER, ICU, and hospital wards across the country for over 10 years. We have trained nearly **2,000 clinicians** how to safely and competently perform hospital and emergency procedures.

As a thanks to you, we are **SLASHING OUR TUITION PRICES FOR ALL OF OUR 2014 COURSES**. From this point forward, our early registration discount is **NOW \$150 OFF** for physicians and **\$200 OFF** for midlevel providers, residents, students. In addition, as a thanks to those who serve, we are also offering **\$200 OFF** for all military physicians.

FIFTEEN REASONS TO SELECT HOSPITAL PROCEDURES CONSULTANTS

HPC is the **ONLY** company offering a **COMPREHENSIVE** Hospitalist and Emergency Procedures CME Course that includes **ALL** the following:

We offer the best and most comprehensive hospital procedures CME course at the most affordable price

We have **THREE INSTRUCTORS** at all of our comprehensive hospital procedures CME courses (12:1 student to faculty ratio)

We are the creators and former lead instructors of the Hospitalist Procedures Course and the Emergency Procedures Course for the National Procedures Institute.

We are full-time physicians practicing in the ER, ICU, and hospital wards

We have **over 15 years of national experience** teaching hospital procedures.

We have published books, an iPhone App, reference cards, and medical videos about Hospital Procedures.

Our course provides **17 hours of Category 1 CME credit and 16 hours of Trauma CME credit**.

Every student receives **FREE** copies of the Tarascon Medical Procedures Pocketbook ([../store/tarascon-medical-procedures-pocketbook](#)) and an HPC Procedural Reference Card ([../store/reference-cards](#))

We use only advanced simulation manikins to best simulate performing these procedures on humans. We do **NOT** use animal cadavers.

Our courses provide 4 hours of **HANDS-ON** ultrasound training in diagnostic ultrasound and ultrasound

guided procedures ([../cme-course/course-description/ultrasound-training/](http://cme-course/course-description/ultrasound-training/)), which is comparable to most dedicated ultrasound courses.

Our courses include hands-on skills labs in arterial line placement ([../arterial-line-placement-course](http://arterial-line-placement-course)), ultrasound-guided thoracentesis ([../thoracentesis-course](http://thoracentesis-course)) and paracentesis ([../cme-course/course-description/paracentesis/](http://cme-course/course-description/paracentesis/)), and needle decompression ([../Needle-Decompression-for-Tension-Pneumothorax-course](http://Needle-Decompression-for-Tension-Pneumothorax-course)) which is often lacking in other courses.

Our course teaches you not only how to do these procedures, but also how to use the information gained from these procedures for clinical management: interpreting fluid analysis, hemodynamic monitoring, ultrasound guidance for hypotension management, and ventilator management

Once our student always our student. We will forever be available to our students for any procedural question or problem.

We provide you with a **2 GB USB Flash Drive preloaded with all of our lectures, video trailers, and procedure articles** so you can always have our course at your fingertips in the hospital!

Every student gets complimentary access to **ALL 21 FULL-LENGTH PROCEDURAL VIDEOS** for an entire week!
