

## **Panama Yacht Tours and Adventures**

*An overview of Panama's Yacht Scene and why is good to charter yachts instead of owning one.*

**July 31, 2007** - [PRLog](#) -- The Republic of Panama is becoming the largest modern city in Central America. There are tons of new projects and developments inside its city that gather modern materials and architecture to its sight along with its oceans.

At the same time there are foreign people immigrating from all over the world to retire or simply explore Panama's city or interior which are both part of Panama's Coast as the country counts with the Atlantic and Pacific coast at only 1hr from each other.

Inside Panama City there are only a minor amount of yacht owners and tons of wealthy families that could consider the purchase of yacht, boat or sailboat. However, this purchase incurs a monthly maintenance fee that in some occasions can reach \$3000 - \$4000 a month. Just think about the cleaning, the fuel costs, operational costs, crew, etc, etc. But at the same time you can always keep positive and think about the pleasure of navigating the N1 region for sport fishing.

The Republic of Panama has over 250 fishing world records and due to its geographical position and underwater topography it's possible to have a tremendous amount of bill fish and game fish species year round.

If you are a seaman who enjoys cruising on yachts, boats or sailboats and considering owning one in the Republic of Panama we encourage you to charter a selection of vessels provided by us. Why owning a single type of yacht and limiting your self to one type of navigation? Or better, why spending \$3000 - \$4000 a month if you could invest it on a private charter for your self instead of your boat?

Most yacht owners don't even use their boat more than twice a month and spend this type of money to keep them.

If you can afford your boat's satisfaction, why not changing it to your personal satisfaction?

Why not chartering a boat once a month for less than \$3000?

If you though this was not possible then log into <http://www.panamacruise.com.pa> and you will see it for you self. Over 30 Panama charters are offered to the public!

Luxury Yachts, Motor Boats, Catamarans, Sailing Boats, Gulleets and more!
