The Great Pyramid of Giza - Mystery Finally Solved E-Book by Chris B. Alan

The Great Pyramid of Giza. Finally the pieces of this ancient puzzle have all come together, and have been brilliantly explained by, Author Chris B. Alan.

Oct. 2, 2007 - PRLog -- Introduction:

Put your thinking cap on and get ready to examine the Great Pyramid on the Giza Plateau in Egypt in a way that has not been considered by all of the so-called experts before now.

You will find my study, research and conclusions about the Great Pyramid in Giza very interesting and enlightening to say the least. I think the evidence shows that my conclusions and findings are what the real story actually is. Finally, the mystery of the Great Pyramid has been solved.

Like most of you, I have been very interested in the Great Pyramid on the Giza Plateau in Egypt for many years trying to understand what it actually was and what it actually did. Like many of you, I have watched the endless TV Documentaries on the Pyramid & Shafts for years. No pharaohs where ever found buried inside of it, and no Egyptian hieroglyphics or cartouches or wall paintings where ever found inside of it either.

As everyone knows, the ancient Egyptians filled all of the pharaohs tombs in the Valley of the Kings up with their wall paintings and hieroglyphics, and they would have done the exact same thing to the inside of the Great Pyramid as well, if they had actually built it.

After reading and studying the evidence that has been left behind for many years on the Great Pyramid. All of the information and facts about the Great Pyramid have all come together, and finally the true story can be told. Get ready for an exciting, exhilarating, thought provoking and surprising ride, as you read my findings and conclusions on what the Great Pyramid in Giza actually was, why it was built, and what it actually did.

As you read this book, your time will not be wasted by a lot of endless, and boring calculations. It was not the author’s intention to bore the readers to sleep with endless, mind numbing calculations.
