Jan. 11, 2008 - [PRLog](#) -- 1. FREE Accounting Software

Brought to you by BUSY INFOTECH, a leading accounting software provider in India with an installation base of over 36,000 (over 2 Lac Users) in over 20 countries.

The software being offered is BUSY UL – a windows-based accounting & inventory management software with no restriction on accounting period or the number of vouchers.

BUSY UL is extremely user-friendly, flexible and powerful. It is completely codeless with on-line context-sensitive help. It allows you to create as many companies as you want.

BUSY UL has an extremely amiable user-interface (quite unlike most of the windows-based accounting softwares). The main functions covered by it are as under:

- Financial Accounting
- Inventory Management
- Invoice Printing
- Document Printing
- Sales Tax Reports
- VAT Computation
- VAT Summary

BUSY UL provides complete financial accounting including all books of accounts and final results upto balance sheet.

BUSY UL provides flexible inventory management with the option of defining unlimited level of grouping of Items. You can evaluate the stock on multiple valuation methods.

BUSY UL provides the option of printing Invoices and other documents like Debit Note, Credit Note, Receipt, Payment Advice etc.

BUSY UL helps in computing the nett VAT payable and also in filing the Sales Tax / VAT Return by providing various Sales Tax / VAT reports. It also tracks the Sales Tax Forms to be issued / received.

BUSY UL also provides the various utilities like Pop-Up Calculator, Warning Alarms and Yearly Data Backup & Restore.

BUSY UL can be upgraded seamlessly to higher editions of BUSY, if your requirements outgrow the product.

DO TRY IT - you will love it's simplicity and power.

2. Introduction to BUSY

BUSY is the 2nd largest selling accounting & inventory management software in India. Launched in 1994, BUSY has an installation base of over 36,000 satisfied users in India and abroad.

BUSY has an extremely amiable user-interface (quite unlike most of the windows-based accounting softwares) and is very flexible and feature-rich. The main functions covered by it are as under:

- Financial Accounting (Multi-Currency)
- Multi-Location Inventory Management
- Production / Bill of Material
- Sales & Purchase Order Processing
- Fully User-configurable Invoicing
- User-configurable Documents / Letters
- Sales Tax Returns / Registers
- VAT Returns / Registers (State-wise)
- Mfg. / Trading Excise Registers
- Service Tax / TDS / FBT
- E-mail / SMS Facility
- MIS Reports / Analysis

BUSY also provides advanced features like Interest Calculation, Bank-Reconciliation, Depreciation Chart, Brokerage & Royalty Calculations, Cost-Centres etc. You can extract virtually any information out of the whole sea of data with the help of the powerful Query System. You can also print all reports on dot matrix printer in draft mode – a unique feature of BUSY. All reports can also be exported to ASCII / MS-Excel / HTML formats thus allowing you to make changes in reports.

In order to enable the prospective buyers to evaluate the product thoroughly, BUSY offers FREE EVALUATION COPY that serves as fully functional software for 30 days.

3. Different Editions of BUSY

Besides the FREE BUSY UL, BUSY offers two editions – Standard and Premium.

BUSY Standard is targeted at trading organisations whereas BUSY Premium is targeted at manufacturing organisations. The extra features in Premium Edition over Standard Edition are:

1. Manufacturing Features (Production / BOM etc.)
2. Excise Registers

Rest all is same in both editions.
