

New Consumer Product To Help Fight Against Overlapping Warranty Coverage From The Factory.

Helps consumers protect themselves now and save money, but the service contract starts at END of factory warranty. All other plans start the day you buy the service contract. Huge benefit to the consumer!

April 2, 2008 - [PRLog](#) -- LITCHFIELD PARK, ARIZ. -- Warranties 4 Wheels, the Auto Warranty Specialists, recently announced two new auto warranty products from Genuine Warranty Solutions and Compass Protection Plans for its customers.

Wayne Craig, President of Warranties 4 Wheels, said his company is providing the new Genuine auto warranty with unlimited expiration mileage to its customers country-wide because many car owners “drive out” of coverage and still have months left before the expiration of their contract. “Unlimited mileage is a welcomed feature and almost unheard of for used cars,” Craig continued. He also mentioned that Genuine contracts have factory-like coverage beginning at the end of the factory warranty and that their contracts are backed by American Capital. Starting at the end of the factory warranty not only saves the consumers money, but adds to the time that they have coverage.
