On Halloween night, comic book artist Troy Haynes is captured by his imaginary heroine Shield and brought into another dimension to learn how Halloween began. Bright, his host, caught between two worlds, tells the story of the sacred passageway and her struggles to close what she herself opened thus starting the Halloween myth.

Destined to be the priestess of the Goddess, she accidentally arrives to Earth where an Indian guru will teach her about spiritual matters, but mostly about love, until tragedy strikes. Too late, Bright discovers that the creatures known as the un-dead use her passage to travel the dimensions, clearly trespassing the boundaries and returning to pursue their evil ways on Halloween night. Feeling powerless to stop them, her quest will take her to Ireland, then to Avalon where she will meet Attilio and his lover Aurelius. Together, they will find new ways to love and trust...but will it be enough to accomplish her task?

"Because the Goddess is one, though She has many names.
