

U-Marq USA to release the new GEM-CX4 computerized engraving machine

U-MARQ USA (www.u-marqusa.com), the N. American supplier of U-Marq computerized engravers, is proud to announce the introduction of a new engraving machine. The GEM-CX4 is now the 5th computerized engraver in the U-Marq engraving product line.

Jan. 23, 2009 - [PRLog](#) -- U-Marq USA, Bethel, Connecticut

The GEM-CX4 combines state of the art computerized engraving technology along with the design and functionality for the gift engraving market. The GEM-CX4 is designed to personalize precious metals (gold, silver and platinum) as well as stainless steel, titanium, brass, plastic, wood, wax and glass. In addition, the GEM-CX4 can produce intricate name and picture cutouts. Precise engravings can be created smaller than .05mm, and artwork or logos can easily be imported and engraved. Engraving can be produced on the inside and outside of rings, on flat, curved, circular and cylindrical surfaces; this makes the GEM-CX4 perfect for gift engraving market!

The GEM-CX4 was developed to provide the operator with easy design creation and fast professional results. It is simple to set up and easy to use on any retail store countertop or craftsman's workshop. The Gem-CX4 software provides fast and efficient engravings that can produced on a single piece or multiple items. The Gem-CX4 is very versatile and capable of engraving anything from the finest of gold bracelets to a full size door sign. It can even engrave large tankards or a small delicate glass flute.

The new Gem-CX4 computerized engraver complements the U-Marq engraver product line. Not only does the Gem-CX4 this have the capability of engraving small items, but large objects as well. It has a small footprint and can easily sit on any countertop. Elisha Kaufman, Director of U-Marq USA stated, "This is computerized engraving machine that the industry has long been waiting for; compact yet extremely versatile. It is a very impressive engraving machine that creates the WOW effect when seen in action."
