

## Free Weight Loss Plan, Slim Extreme

*whatever results you're looking for with SX - maximum energy, rapid weight loss, getting the body you've always wanted - SX Boosters help you get there even faster.*

**April 24, 2009** - [PRLog](#) -- Whatever results you're looking for with SX - maximum energy, rapid weight loss, getting the body you've always wanted - SX Boosters help you get there even faster. And don't worry - when you use SX Boosters you'll still experience the same "no crash" performance you're used to with SX. SX Boosters will wear off gradually so you can decompress, sleep and be ready for another highly productive day.

Less appetite. more energy, extremely powerful

Let Us Guess - You have Heard These Claims Before. We're nuts about energy and weight loss supplements. We have tried them all and we've been as disappointed with the results as most people. So we imagine you might be skeptical when we promise high energy, low appetite and a great mood all day long - all in one pill. That is why we want you to understand how SX works.

"Never before has a product increased energy and removed your appetite while keeping your mood extremely elevated."

First, we should understand what SX does for your body. SX delivers energy. But not any old energy. Clean, long-lasting, jitter-free energy. You don't feel all wired and jittery. You just feel like whatever you have to do, you have got the energy to do it. So with more energy your body will burn calories at an increased rate.

Then understand that as much good as SX does for your body, it is equally important - maybe more so - what SX does for your mind. SX makes you feel great. We don't mean physically - although of course it does that too - we mean emotionally, mentally and psychologically.

When you understand the energy enhancement and the mood elevation, it should come as no surprise that SX has a major appetite suppression effect. Think about it: You are feeling great, you are moving around all day burning calories at an increased rate - of course you are not overeating or making poor dietary choices. It is no secret: People eat out of depression, anger, and boredom. But get people moving around and feeling good and guess what: they eat like normal people, if they even think to eat at all. And just in case you actually would still make poor dietary choices - we added in one of the strongest natural appetite suppressants available. Never before has a product increased energy and removed your appetite while keeping your mood extremely elevated.
