Review of the new Cricut Expression Scrapbooking Die Cutting Machine

May 26, 2009 - [PRLog](#) -- There is so much to love about the Cricut Expression Machine. The Cricut Expression is a much larger version of the original Cricut Electronic Personal Cutting Machine. It is less portable, but much more powerful. It will let you design more intricate and vibrant designs in sizes ranging from 0.25" to 23.5". A real hit with scrapbookers, the Expression is one awesome die cutting machine.

What makes the Expression machine special? With the new multi cut feature you can cut not just paper and cardboard but also vinyl now as well! With the wide range of sizes you can cut, there are many project ideas one can come up with. You can be much more creative since you can cut more materials and in many more sizes.

The Cricut Expressions also let you mix and match your designs. The machine has a clear LCD screen so you can visualize everything before you print it. You can reposition, resize, and flip images so you make the best use of the space. Able to display instructions in four languages, this machine is available to many different people. If you are a little entrepreneurial it's not too hard to learn how to make money with your Cricut either.

The Cricut cartridges that worked with your old machine also work with your new Expressions machine too. The same is true of the blades and housings as well. Upgrading from the Cricut Create is no problem at all thanks to this. All in all though, the Expression is a much more powerful and versatile machine compared to the Personal Cutting Machine and Create.

Getting a good deal on your Cricut products is always a good idea. In this economy it's great to find discounted deals and sales on your scrapbooking items. Many like to search for discount Cricut deals on Ebay and other retail stores online. You can get some good deals sometimes at Joann Fabrics too when you get a sale. However by far the best place to get discount Cricut Expression machines is on Ebay.
