

Phone Repair Depot Breaks New iPhone Repair Record www.PhoneRepairDepot.com

We have repaired the most iPhone Screens in the Texas Area. Our Level of customer service has surpassed others on many different levels. We are proud to present that we are expanding operations and extending iPhone Repair to include the 3g and 3gs

July 30, 2009 - [PRLog](#) -- www.PhoneRepairDepot.com We are proud to say that we have replaced and repaired the most iPhone screens in the State of Texas, and the Dallas Fort Worth Metroplex. For the past 2 years we have been helping victims of cracked phone screens get back on the road to a nice phone, looking better than brand new. We are expanding operations from only iPhone 2g screen and LCD repair to include the 3g iphone cracked screen and LCD repair, as well as the iPhone 3gs cracked screen and/or LCD repair.

We now also support mailed in repair work orders, you just have to follow the procedure posted online at

www.PhoneRepairDepot.com

When we replace screens our customer service is superior, and our technicians precise. We have one of the best repair centers, and fastest turnaround times in the United States. The reason that many other sub-par companies can not compete with us at

www.PhoneRepairDepot.com

is that we stock and use only our own OEM Apple Parts, Many companies are purchasing their Screen replacement parts from others that provide them with Parts that are less than OEM quality, and for Apple iPhones this will just not cut it, these non OEM parts are causing more problems with other things such as your home button and head set volume.

In order to avoid many sub-par companies and use of low-quality replacement parts, we recommend that you use www.phonerepairdepot.com for your cracked iphone screen repairs. We are well established and have a large customer base.

If you are having trouble with your cell phone, Phone Repair Depot can help! For walk-in Dallas cell phone repairs, or convenient mail-in cell phone repair service nationwide, contact us today! We will repair your cell phone in a couple hours or have a mail in service where the turnaround is 24 hours, so you won't be without it for long. We are committed to fast, high-quality, cost-effective cell phone repairs and services.
