Jeff Quraishi commented, "Thai automotive scene keeps changing as few auto exporter survive beyond their second anniversary. Soni and Jim4x4 have not only survived but thrived for more than three decades and it is thanks to our low price, quick delivery, honesty, integrity, professionalism, quality and customer service. Our dealer customers love the fact that not only we offer them the lowest price in town but are also able to get them the vehicles within a week. The fact that we are shipping hundreds of vehicles a week means that our vehicles are always in stock, they are of the freshest manufacturing stock and are shipped very quickly. If a customer buys from another vendor the shipment may take weeks to ship which means that his investment is sitting idly while he and his customers wait. When he places an order with us and receives vehicles quickly he is able to increase the velocity of his money. His vehicle arrives quickly, he sells it quickly and places an order right away to keep the cycle going. 'Time is money' maxim is realized in our speed of delivery. Last year, we made history once again by shipping Toyota Hilux Vigo and Toyota Fortuner 2009 in one day of its release. This year is no exception, but this year we shipped 2010 Toyota Hilux Vigo two days before its release. Double Cap Toyota Hilux Vigo 2009 2010 model is the first pick-up truck to fully install newly developed safety technologies such as Vehicle Stability Control (VSC), Traction Control (TRC) and Brake Assist (BA) which makes it one of the safest 4x4 pickups. Furthermore, features installed to increase comfort level to the same level as a passenger car include, Cruise control, 6-way adjustable electric power seat with leather package and Optitron meter provide optimum visibility in all kinds of weather."

Vigo and Fortuner 2010 unveiling party was held at Jim 4x4 and Soni Motors spacious headquarters in Prawet district of Bangkok which includes South East Asia's largest showroom of diesel 4x4 vehicles.
