

Exclusive Debt Settlement Leads & Debt Consolidation Leads for Debt Companies - Buy Cheap

Buying exclusive Debt Settlement leads is on the rise as clearly evident by the growing search volume on Google rankings. The decision to buy live transfer exclusive debt settlement leads has now become a tough choice for debt counselors

Oct. 12, 2009 - [PRLog](#) -- Buying exclusive **debt settlement leads** is on the rise as clearly evident by the growing search volume on Google rankings. The decision to buy live transfer exclusive debt settlement leads has now become a tough choice for debt counselors wanting to purchase debt settlement leads.

Several factors that seem to control this decision making process are the increasing competition amongst lead generation providers that leaves the Internet flooded with different lead generation options, the growing Federal Trade Commission laws and the unstable **debt settlement lead** prices that have flaunted itself over the last 2 months.

Debt Settlement leads has become a very hot commodity and lead buyers find it almost impossible to find any quality **debt settlement lead** for under \$50 when generated through TV, Radio or Internet . However, there is a lead generation alternative available that will enable a debt settlement company to purchase debt leads at low rate. They are called voice mail debt settlement leads remain at a stable price in the \$17 range.

These **exclusive debt settlement leads** are generated as voice mails in which the debt prospect leaves a voice message with their full name, phone number, amount of debt they are in (over 10K) and the best time to call them back. These exclusive live transfer debt settlement voice mails are then pre-screened meticulously to ensure information is complete and then forwarded to a lead buyers email.

What is beneficial about this lead generation process is that these **exclusive live transfer leads** are replaced for free if they do not contain the required information. This debt settlement lead product is so exceptional because the leads can be generated based on individual zip codes and states.

Live transfer debt settlement leads engineered by voice mail technologies have emerged of late offering debt counselors and credit counselors the opportunity to buy fully exclusive leads at half the price of live transfer TV leads.

Benefits to this new service are that all voice mails are pre-examined for errors such as absent person's name or phone numbers while also guaranteeing the voice mail does not include any vulgar or offensive language. There is a "No Bad Leads" guarantee in place to make certain it is replaced at no charge. After all you don't want to purchase a \$18 debt settlement voice mail lead that has dead silence on the other end.

Some guidelines which fall under a bad debt settlement voice mail lead are the phone number is incorrect or disconnected, the contact information contains rude or vulgar language, the contact did not request information and the information provided is obviously bogus.

If you are buying live transfer **debt settlement leads** it would be wise to ensure you are getting a fair deal with your lead generation vendor. It wouldn't be financially viable as a debt settlement company to frequently search for different lead vendors which could potentially tap into your earnings if you happen to depend on quality debt settlement leads to generate business.

Our Debt Settlement Leads average \$17 and you can narrow your target demographics based on zip code or individual state.

Contact us at (954) 703-1329 to discuss great **debt settlement lead** opportunities!
