Provericon and the ONLINE Rental Exchange Complete Integration

ONLINE Information Services, Inc. announced today an agreement to integrate its premier tenant screening solution, the ONLINE Rental Exchange, with the Landlord Enterprise property management system from Provericon.

Oct. 16, 2009 - *PRLog* -- **Winterville, NC** - ONLINE Information Services, Inc. announced today an agreement to integrate its premier tenant screening solution, **the ONLINE Rental Exchange**, with the **Landlord Enterprise** property management system. This integration will allow Provericon's property management customers to view an instant credit risk decision, and run criminal background checks and eviction searches all from within the Landlord Enterprise property management system.

The ONLINE Rental Exchange will utilize application data entered in Landlord Enterprise to verify the applicant's identity, return an accurate leasing decision according to the property's policies, and highlight unpaid property management bills and disconnects from ONLINE's unique national Rental and Utility Exchange databases and other national sources. Further, the integration will allow Landlord Enterprise users to send their customer payment information to ONLINE automatically, helping to track customers who do not pay their bills from property-to-property through ONLINE's national Rental Exchange database.

About the ONLINE Rental Exchange:
Established in 1956 as a local merchant credit bureau, ONLINE Information Services, Inc. is currently the nation's leading developer of risk management and debt recovery solutions for the Utility, Property Management, Healthcare, and Mortgage industries. Servicing Property Managers throughout the nation, the ONLINE Rental Exchange is a rental-specific credit bureau with the single goal of providing the tools necessary to eliminate bad debt and protect our customers' residents. About Provericon Software Development Inc.:
Provericon develops custom software applications for various business domains, including the property management industry and other vertical markets.

LANDLORD ENTERPRISE allows the landlord or property manager to store, manage, and analyze information about units, tenants, and leases. It comes with powerful accounting and reporting capabilities, vendor management modules, equipment/asset management features, and maintenance/repair log capabilities. Suitable for most mid-sized organizations, LANDLORD ENTERPRISE is cost-effective, and its streamlined workflow makes it extremely easy to use.

LANDLORD ENTERPRISE permits an unlimited number of tenants and units and is available for $179.99. A free, non-expiring trial version is available for download from the product website at http://www.landlordenterprise.com.
