

## MagniWork – The Free Energy Generator Blueprints

*MagniWork is the company that has produced the free energy generator blueprints. These blueprints take you through step by step to show you how you can build your own free energy generator at home.*

**Dec. 15, 2009** - [PRLog](#) -- MagniWork is the company that has produced the free energy generator blueprints. These blueprints take you through step by step to show you how you can build your own free energy generator at home. Most of the materials needed you could have lying in your garage. If you don't have them, don't worry. With these blueprints comes a list of items you will need and all of these items can be picked up from your local hardware store. The MagniWork blueprints also have a list of stores that you can buy the parts from.

Magnetic Energy has been talked about for decades. Since the days of Nikolas Tesla. The inventor of magnetic energy. It is only until recently however that it has become possible to replicate the machine that powers itself. This is one of the biggest breakthroughs in this century. I mean, what would it mean to you to be able to power your home with Free Energy. No more bills to the electric company, no more unexpected high power bills.

If everything in your home could be powered by magnets, a renewable energy, that has no harmful effects on the environment. Not only would you be getting free energy you would also be doing your bit to cut down on global warming. Also think of it this way. If you build your machine and starting using it, then told your friends about the MagniWork blueprints. And they told their friends. Sooner or later there would be a big impact on the environment.

--- End ---
