Double-Stage Insulating Oil Purifying / Oil Filtration / Oil Recycling Machine (Series ZYD)

This oil purification plant is applied to filter various of unqualified insulation oils including aging transformer oil specially for the power which is above 110KV, mutual inductor oil, switch oil and so on. Also it can inject the insulating oil into the transformers on-line.

Features
3. Duplex 3D stereo-evaporation, eliminating the liquid water quickly
4. UK G technology by which the trace water that is show chain, such as dissolved water, can be removed effectively.
5. Distinctive removing impurities system filtering through double FH trapezoidal network and absorbing by high polymer without the mechanical power
6. Carbon fiber infrared heating system that can make the oil contains zero sum of ethyne after the treatment
7. Especially applied to vacuum oiling and drying for power transmission equipments that are over 110KV
8. The oil of any grades can be treated on line at the working site.

Advantages
Comparing with the single-stage vacuum oil purifier, this machine dwaters, degases and removes the impurities more quickly, more completely, and makes the oils limiting voltage-withstand value much higher. As the bridge-type vacuum linking system that can filter and be an independent vacuum power supply, this machine can treat the electric insulation devices.
Main Products:
1. Insulating oil purifier
   1.1. Series ZY: Zhongneng vacuum insulation oil purifier
   1.2. Series ZY-A: Zhongneng Vacuum insulation oil automation purifier
   1.3. Series ZY-R: Zhongneng vacuum insulation oil regeneration purifier
   1.4. Series ZYD: Zhongneng Double-stage vacuum insulation oil purifier
   1.5. Series ZYD-A: Zhongneng double-stage vacuum insulation oil automation purifier
   1.6. Series ZYD-R: Zhongneng double-stage vacuum insulation oil regeneration purifier
   1.7. Series ZYD-M: Zhongneng Mobile Type Transformer Oil Purification Plant, Oil Recycling
2. Turbine oil purifier
   2.1. Series TY: Zhongneng vacuum turbine oil purifier
   2.2. Series TY-R: Zhongneng vacuum turbine oil regeneration purifier
   2.3. Series TY-A: Zhongneng vacuum turbine oil automation purifier
3. Lubricating oil purifier
   3.1. Series TYA: Zhongneng vacuum lubricating oil purifier
   3.2. Series TYA-A: Zhongneng vacuum lubrication oil automation purifier
   3.3. Series TYC: Zhongneng vacuum lubricating oil regeneration purifier
4. Engine oil purifier
   Series LYE: Zhongneng vacuum engine oil purifier
5. Diesel oil, gasoline oil and fuel oil purifier
   Series TYB: Zhongneng diesel oil, gasoline oil and fuel oil purifier
6. Transformer oil regeneration device
   Series BZ: Zhongneng BZ transformer oil regeneration device
7. Multi-Functional oil purifying machine
   Series ZYB: Zhongneng Multi-Functional oil purifying machine
8. PL Plate pressure oil purifier
9. JL Portable oil purifying
10. TYD Water oil separator, oil purifier machine
11. Automatic testing oil machine

Chongqing Zhongneng Oil Purifier Manufacture Co., Ltd is a leading oil purifier manufacturer, which engages in developing, producing, selling a series of oil purifier such as transformer oil purifier, turbine oil purifier, engine oil purifier, and so on.
