Proud Photography is an online learning course that has 13 crucial photography lessons that you need to take in order to become fully professional. These courses are designed for newbie to advance photographer. Even if you are a skilled photographer, you can learn many new tips and tricks that can improve your photo taking to the next level.

Proud Photography is an interactive online class that has everything you would need to learn and become a professional photographer. The course is much like real classroom learning because you have a personal tutor that you can interact with and they will give you support while you are learning. There are students from all over the world joining the courses, you can share information, chit-chat and exchange your work with other students online.

You do not have to attend a physical photography school that could cost you a fortune for the entire semester. Studying online with your computer can give you the freedom to study at your own pace and there is no deadline. There will be assignment and workshop that you need to bypass by taking quizzes and examination in order to advance to the next level.
