The shortcut to getting the Mini Energy Buff without installing the MW Toolbar is a Limited Time Special Feature and may be withdrawn by Zynga at any time.

There is 2 methods to do this(you can use any one of them):

1. Spockholm has released a bookmarklet on his beta page - Links Are Hided Visit The Source Link(At the bottom) For Full Article With Working Links - entitled "MiniPack (live)" which automates the procedure below and is much easier to use.

2. Have you already gotten the Utility Belt and "Got Tools?" Achievement? A really fast shortcut to claiming the Mini Energy Buff is to make a new bookmark for:

Links Are Hided Visit The Source Link(At the bottom) For Full Article With Working Links

and use the bookmark every 8 hours. No need to use the "MiniPack (live)" bookmarklet.
