

Table Pads for Dining Room | Conference | Protective Table Pads

Dining room table pads protect your dining table from heat, scratches and spills. Table Pads Custom is a table pad company who manufactures table pads, protective table pads, custom table pads in all shapes and sizes.

Feb. 17, 2010 - [PRLog](#) -- Table Pads Custom is the leading website for custom made table pads. Our protective table pads protect your table from heat, scratches and spills. Although there are dozens of table pad web sites, we know of only five companies that actually manufacture custom table pads. We are one of them.

We manufacture pads to protect dining room tables, kitchen tables, buffets/sideboards, coffee tables, conference tables, desks, pool tables, etc. We also make dining room table extender pads to increase seating capacity. Our latest invention is Table Paddies™ - mini-tablepads for casual dining when entire table doesn't need protection.

If you are confused about prices and claims of other sites, one of our customer service reps will happily assist in making comparisons. They will even share with you who our competitors are. No problem - we know we CAN'T BE BEAT!

Our greatest claim to fame is our patented, magnetic locking system (MagnaLoc™.) This is a unique table pad innovation which helps keep sections together and prevents separation while in use. Unlike any other locking device, MagnaLocs™ are 100% user-friendly, totally hidden and secured beneath the table pad upholstery, making it almost impossible for damage to ever occur to your table surface, unlike other locking devices.

The perils of everyday life threaten the surface of your treasured dining table. Any fine or simulated wood top can be easily damaged from setting down a sweating glass, to accidentally dropping an object. The only reliable and time tested method to protect your furniture investment is a custom made table pad.

Not only will a table pad protect your table top, a table pad also acts as a cushion to absorb sound when dining.

All of our pads are factory guaranteed. Our "Best Pad" is unconditionally guaranteed for life. They may very well outlive the table itself. It's rare to find genuine quality in a world where products are designed to fail, where they require periodic replacement. Such is not the case with our table pads.

For those of you who are skeptical of ordering by mail, phone or internet, put your mind at ease. We have been advertising in newspapers, magazines, and television for years. Our measuring techniques have proven to be as accurate as if someone came to personally measure. You can easily measure your own table, regardless of the size or shape, in less than ten minutes.
