The all newly redesigned Infiniti M37 takes a big step forward from the previous M35 in both the style and performance departments. Starting from the noticeably larger exterior look, the M37 takes its que's from the sporty Infiniti g37. With a more sculpted look and a lower stance; the new 2011 M37 looks the part of an ultra luxurious sedan. It has beautiful flares and well defined muscular bulges. The car is a bit wider to aid in the traction and ride departments.

In the performance department the biggest and most important change is the departure from the 5-speed automatic transmission to a super high tech 7-speed transmission with rev-match downshift. This allows for greater fuel economy and ultra clean shifts. Gone is the old VQ35DE engine that has proved itself worthy. Instead a revised form of this engine which benefits from increased displacement is under the hood. The VQ37VHR engine features VVEL or Variable Valve Event and Lift coupled with an 11.0:1 compression ratio that allows the engine to produce 320 horsepower and 270 lb-ft. of torque. Opt for the Infiniti M56 and you get a 420 horsepower V-8 engine!

These cars get nice 20-inch rims, four wheel steering, huge vented brakes, and a sport suspension. They also have all the bells and whistles you would expect from a luxury car. There are some great options and accessories that can be had. Starting Price for these 2 all new sedans start at around \$50,000. See these cars for sale at Infiniti of Montclair located just minutes outside Los Angeles California. Or stop by the Montclair Infiniti website for details. <http://www.infiniti.com/j/i/31720/AllNew2011InfinitiM.html>
