this article also adapt to Office password recovery 5.0

Step 1: Install the Word Password Recovery 5.0 Download To recover your Word document password, you'll need to first download the product from Password Recovery Official site. The direct download is available here:

[http://www.recoverlostpassword.com/downloads/word\\_password\\_recovery\\_trial.exe](http://www.recoverlostpassword.com/downloads/word_password_recovery_trial.exe)

Run the setup file, using the recommended default install options.

Step 2: Start the Password Recovery Wizard

Click "File>Open" in the Menu or the "Open" button to browse in the Word document.

Select your file in the Open File window, and click "Open".

Step2: Select "Brute-force Attack (Trying All Possible Combinations)".

Step3: Click "Start" button in the Menu to initiate the program.

Step4: The program is searching the password. Some time later, a message box pops up to you, displaying the expected password. Click "Remove All Passwords from the File" to remove all passwords (Password to Open and Password to Edit) from the file. Click "OK".
