Our team of expert Sony VGN-AR series repair technicians and engineers carry out extensive diagnosis to discover the reason of crashes, lockups or abnormal slowness. Our job is to get your defective Sony laptop back up and running, and back to you. With turnaround time typically ranging from 1 to 2 days in most cases you can be guaranteed that your downtime without your laptop computer will be kept to a minimum. The services that we make available as part of our London Sony VGN-AR series repair and upgrade services are:

- * Resolving laptop freezing or crashing issues
- * Fixing login issues and blue screen of death
- * DC power jack repair and replacement
- * Data recovery and back up
- * Virus and Spyware removal
- * Antivirus software installation
- * CD / DVD drive repair and replacement
- * Memory upgrade and replacement
- * Hard drive upgrade and replacement
- * Touchpad repair and replacement
- * Keyboard repair and replacement
- * Motherboard repair and replacement

NVIDIA had previously widely acknowledged a failure associated with some of their graphics processors (GPU) due to a manufacturing defect in the graphics chip packaging in some VAIO models. These laptops may exhibit distorted video, random characters or a blank screen due to a failure of the NVIDIA graphics chip. As a part of our commitment to offer quality Sony VGN-AR series repair, for any customer who requires repair of their VAIO laptop due to the NVIDIA graphics processor issue, we request you to contact us at the earliest. As specialists in component level laptop repairs, we can successfully fix NVIDIA graphics chip problems of Sony VGN-AR11x, Sony VGN-AR21x and Sony VGN-AR31x series.
