

Professional Web Hosting And Domain Registration

All web hosting services are provided by Lecky Konsult International LTD, a United States based company, headquartered in Laurel, Maryland.

June 16, 2010 - [PRLog](#) -- Our ready solutions enable small and medium-sized enterprises to gain money from their websites and respective online activities. The online presence in the ever expanding global network allows companies and individuals alike to take advantage of the World Wide Web.

It may sound unbelievable but the majority of the big companies in the web hosting business usually do not invest much in the development of new technologies. Instead they rely on 3rd party solutions and software. Unlike theirs, our hosting software was created, developed and designed in-house by us. Moreover, our business approach is human-oriented in that our client support is a center factor in the quality hosting service that we offer.

Lecky Konsult International LTD offers professional web hosting services for both individuals and enterprises. Depending on the number of websites you need to host, you can choose between a variety of web hosting packages, each one carefully prepared according to your needs.

1. Solid Background in the Web Hosting Industry

We have been part of the web hosting scene for more than four years now, and thus have become familiar with the niceties of this industry. Our in-depth experience has encouraged us to pour a significant part of our creative juices into web development. The result is a web hosting platform of our own brand, which is available to you via a feature rich user-friendly Control Panel.

2. Trustworthy Partners

Lecky Konsult International LTD is working in collaboration with LiquidNet Ltd., a UK-based company (Registration No. 4654498), which is a pioneer in developing innovative online solutions. Thanks to this fruitful partnership, a joint network has been set up, accommodating more than 21 000 web hosting accounts and 53 000 domains.

3. A Complete Solution for Your Online Presence

We offer you a one-stop web hosting solution, which will let you build a successful online presence through various helpful services. By completing everything under one company, you save yourself a lot of headaches. Thus you will enter into the global Internet space quickly, at a very reasonable cost. Drop by for a multi-lateral online experience based on next-generation technologies, fast servers & 24/7 customer support.

4. Competitive Prices

One of the most important factors in choosing the best web hosting provider for you is the good price/quality proportion of the offered services. Lecky Konsult International LTD gives you more than you actually pay for. The combination between quality web resources, multiple domain hosting and many supplementary useful features is available to you at a very reasonable cost.

5. Full-Time Involvement with Customers' Online Demands

Our online efforts are concentrated on serving our customers' demands effectively, which is why we put an accent on quality customer support available to you round the clock. Not only are our well-trained support guys at your disposal 24/7, they are also keen on responding to your needs almost immediately, although our response time guarantee is 1 hour.

6. Reliable and High Speed Server Network

The technology behind our data centres is aimed at delivering maximum server performance, with a focus on inexpensive reliability. Our in-house built hosting platform is based on fast, first-quality custom-built servers under our ownership, that are located on both sides of the Atlantic ocean - Fremont, CA, and Houston, Texas, in the United States and Maidenhead, Berkshire, in the UK.

7. Reliable Semi-Cluster Technology

The reliability of our self-developed web hosting platform software is among our priority tasks and we are continuously investing intellectual efforts toward taking it to a full cluster server technology level. Being a step away from the desired final result, we are offering you a semi-cluster based hosting service with many advantages. This technology allows the separate services, such as DNS and e-mail, to be performed on independent servers, which ensures their increased stability. Our platform has proven to be between 5 -10 times better than the one-server hosting platforms in terms of performance, usability and capacity.

8. Multi-Language Control Panel of our Own Design

Lecky Konsult International LTD Multi-Lingual Control Panel is very easy and pleasant to work with and is a product of our partnership with LiquidNet Ltd. For better orientation, the feature rich Control Panel interface is interspersed with useful Help Links and over 60 Video Tutorials that will shed light on everything that you may find useful. As of now, our Control Panel supports 14 languages (English, Spanish, German, French, Bulgarian, Russian, Ukrainian, Norwegian, Portuguese, Dutch, Romanian, Chinese Simplified, Chinese Traditional, Czech), as their number is expected to keep growing.

9. Plenty of Useful Charge-free Features

Our web hosting services do not include web space, traffic and domain name options only. With every web hosting package you get many free-of-charge supplementary services:

- * Elefante Free Scripts Installer that allows you to easily install web site gadgets such as blogs, photo albums, forums, e-commerce, portals, etc.
- * Elefante Marketing Tools containing site popularity check, rss feeds and other useful accessories.
- * Elefante Administration Tools for hotlink protection, IP blocking and an .htaccess generator
- * Site Studio, an easy-to-use online website builder with a spectrum of 140 personal & business templates, making you forget about paying for web design services.

10. Multiple Web Site (Domain) Hosting

Our packages have been designed to let you host more than one independent web site in a single account. Moreover, you can add several web sites for the price of one, which is offered by few companies and considerably cuts off the domain hosting costs.

11. Possibility to Upgrade to a More Advanced Set-Up

Keeping in mind your intentions to grow online, we allow you to easily upgrade your hosting account to a more advanced one directly from your Control Panel. You will be a click away from choosing the best plan to upgrade to and covering only the difference between the prices of the two packages, in compliance with the number of months left to the expiration date of the current account.

12. Unquestionable 30-day-Money-Back Guarantee

Lecky Konsult International LTD packages include a 30-day money-back-guarantee, since we take into

consideration the cases when someone will make a purchase from us and subsequently find that the product doesn't fit their demands or come up to their particular expectations. In the event of some mismatch between our services and your needs, you are free to request your investment back within one month of the sign-up date.
