

Loki brings her talent to the stage

Loki releases her own music for all audiences to enjoy

Aug. 26, 2010 - [PRLog](#) -- LOKI

At a talent contest hosted by Jay Anthony Brown, Loki took her first step onto the stage and won when she showed she has what it takes to be a comic. Loki Johnson not only met the two founders of the Pointer Sisters, June and Bonnie but they became the best of friends. In time the two sisters took their new friend and discovered that Loki had talents that she didn't know she had. After June's death Bonnie took Loki under her wings and the two toured across the United States. This is when Loki got her musical education. She's had the privilege of being on stage with great performers such as George Clinton, Sly Stone, Alfonzo Jones, Jae Deal, Suga Free, Antone Chooky Caldwell and many more. Loki has an awesome unique way of putting words together and has her own collection of songs that she wrote.

With the release of her debut CD titled "Many Faces Of Loki", she is finally showing her audiences her wonderful collection of great songs.

Her lead single, "You Keep Me Alive" is about love and the way it makes you feel. With it's cool 80's rhythm and smooth beat, you can't turn away from this song. The vocals are on the mark with wonderful verses full of rhythm and texture. It's an R & B tune with a bit of jazz sprinkled in. She is also very versatile with her style of music which ranges from R & B to jazz/funk to classic pop and even a little Spoken Word. Her laid back style is mesmerizing and captivating, pulling in the listener and holding on to the very end. From rhythmic soul to poppin' rap, Loki does it all. Her music is addictive and every song is radio friendly. You can feel that beat, pop with that rhythm and move with the groove... All though Loki is still working on a few of the tracks, you are able to listen to and/or purchase released songs from sights listed below:
