Imagine being supremely proud of pictures admired by all. Portraits so good family and friends will be proud to display them. Gain confidence as you win acclaim for your talent, skill and ability. If portrait photography is your hobby imagine getting to the standard where you can exhibit and sell your work if you wish.

If you already photograph models but would like to take your pictures to another level, imagine being recognized as an authority with a growing reputation for professional standard portrait work. Imagine rising to any challenge with alternative poses available whatever the context of the picture and whatever the posing genre - casual, glamour, journalistic or traditional. Any portrait photographer involved in print work, specialty modeling or stock photography will find this resource indispensable too.

This 120 page book includes:

- \* How to focus on the body to aid posing.
- \* The key to duplicating or creating any pose.
- \* The three letters that can build a pose (no, not A-B-C).
- \* Important points to consider for a reclining position.
- \* Exercises and suggestions to help analyze pictures and poses.
- \* Ten simple solutions when your model does not know what to do with their hands.
- \* How to avoid foreshortening of limbs.
- \* The three basic head movements that make a difference to your model's features.

Forget trial and error. You need never be stuck for a pose again when you get this easy to read, simple to follow book that you can download in minutes.
