

Automated Sports launches its Mobile Gaming Platform

Automated Sports launches its Mobile Gaming Platform. On top of a full suite of internet gaming modules the Automated Sports Mobile division is on the rise

March 16, 2011 - [PRLog](#) -- On top of a full suite of internet gaming modules the Mobile Division has developed a full Sportsbook and Lottery application with Horses and Bingo applications in full development. These new mobile applications can be applied to the full Automated Sports Platform or be added to an existing platform. With our unique modular set up there are no limitations.

Automated Sports Mobile modules are easily used on all internet capable mobile devices. Whether your customers are using iPhones Blackberry's or Androids they will always have wagering capabilities along with access to the live scores they need while on the go.

“With the world continuously on the move, the mobile world is the next generation. We at Automated Sports are here to guide the way.” Stanley Newman, Head of Product Development explains.

For any additional information pertaining to Automated Sports and their Mobile applications please contact a representative using support@automatedsports.com or visit www.automatedsports.com

Choose Automated Sports and let it work for you!

###
