

Bryce Johnson settles case for Iraq War Veteran for \$975,000

Primarily their client suffered a traumatic brain injury and post-traumatic stress disorder (PTSD).

OKLAHOMA CITY - May 1, 2015 - [PRLog](#) -- Bryce Johnson and Sherman Reed, of Bryce Johnson and Associates, recently settled a semi-tractor trailer/ automobile collision for \$975,000. A semi-truck driver had fallen asleep and crossed over the interstate's concrete median barrier causing a multi-vehicle crash involving their client.

The primary injuries were traumatic brain injury and post-traumatic stress disorder (PTSD). Dealing with his pre-accident medical history was challenging as he was an Iraq war veteran and had sustained multiple traumatic brain concussions and severe combat related PTSD.

Bryce Johnson and Sherman Reed took the position that the additional traumatic brain injury from this wreck, combined with aggravation to the client's pre-existing PTSD, severely affected his ability to work and support himself.

The case was resolved during the litigation process.
