

Branch Restoration, Inc. Acquires Exclusive Disinfection Technology Offering Unparalleled Infection Control Services

Critical for Preventative Maintenance, Minimizing Outbreaks, Reducing the Spread of Disease, After Renovations and Repairs, and Disaster Recovery.

NEW YORK - July 13, 2016 - [PRLog](#) -- Premier commercial and residential property damage and environmental services company, Branch Restoration, announces it has expanded its business model by joining the TOMI™ Service Network (TSN), an exclusive national network of professional remediation companies. By joining TSN, Branch Restoration has acquired a groundbreaking disinfection system, SteraMist™ powered by Binary Ionization Technology® (BIT™), increasing its service offerings.

More effective than simple spray and wipe disinfection methods, SteraMist™ BIT™ offers high capacity disinfection to kill pathogenic bacteria and inactivates viruses, including Clostridium difficile spores?, Pseudomonas*?, MRSA*, Staph*?, Influenza** and more. The SteraMist process is ideal for schools, medical facilities, gyms, senior living facilities, hotels, and more.

"We are extremely proud to be a TSN provider in the New York area and confident that our existing and new clients will greatly benefit from our new infection control techniques," said Michael Caputo, President of Branch Restoration. "SteraMist™ BIT™ application does not contaminate the environment with toxic by-products and leaves no residues. SteraMist™ is EPA registered for use as a hospital-healthcare disinfectant and general use disinfectant."

"We are delighted to welcome Branch Restoration into the rapidly growing TOMI™ Service Network," stated TSN president Scott Stamper. "Branch Restoration's commitment to outstanding customer service, quick response, and outstanding business ethics makes them a perfect fit for the network. We look forward to a long and successful relationship."

About Branch Restoration, Inc.

Located in New York City, Branch Restoration, Inc. is an experienced disaster restoration and environmental services company.
