

## Terry Sacka Says The Real Gold & Silver Price is Coming

*Terry Sacka made a recent appearance on the Wealth Transfer News Show with Dr. Charles Vance, discussing why the manipulated gold and silver market will soon show true price discovery as the global economy melts down, exposing the lack of physical supply.*

**JUPITER, Fla. - Aug. 18, 2016 - [PRLog](#)** -- Terry Sacka opened the show to discuss with Dr. Charles Vance that the [Comex](#) is alarmingly low as he showed charts of authenticated physical gold versus the Comex gold coverage ratio.

He stated, "The system is not just broken but it's inflated at a point where they're trying so hard to present an image of what is there, but once you peek behind that curtain the image is tragically different than the reality."

He went on to say, "The [Comex situation](#) is important because we're getting to a point where the Chinese Shanghai Exchange has come online and is going to be competing for the physical gold price market. But it's all fake - this is paper derivative trading of the actual physical."

He explained, "Here's the problem because they allowed speculators (bankers) to create things called derivatives which are fake investment tools made of nothing in paper form to buy and sell. It's what collapsed the housing market. They're selling things on paper they really don't physically own."

The two charts showed 542 ounces of gold sold per ounce of deliverable gold. Imagine 542 people on one side of the street and one ounce of gold on the other side as they run toward it.
