

Vee Technologies Featured in Gartner's Market Guide For Finance & Accounting

NEW YORK - Dec. 8, 2016 - [PRLog](#) -- The world's leading information technology and advisory company, Gartner, Inc., has released its latest Market Guide for Finance and Accounting Business Process Outsourcing Service Providers. Vee Technologies is proud to be listed in this prestigious market guide that selects the top 20 providers that offer F&A BPO services in categories ranging from accounts payable and accounts receivables to BPaaS services.

Gartner is a trusted source of information and analytical data for CIOs, CFOs, IT leaders and business leaders globally. Being featured in the Gartner list of F&A companies that are trusted worldwide is an achievement for Vee Technologies

The Gartner report shows that Vee Technologies has clients that trust its F&A service across industry verticals in the categories of banking, financial services and insurance, healthcare providers (including hospitals), and transportation. Vee Technologies has clients globally.

Gartner's key selection criteria for the list of F&A service providers was industry expertise, consulting best practices, investments in automation, and continuous process improvements, which is a further validation of Vee Technologies commitment to ensuring extraordinary outcomes for its clients, offering quality in every transaction.

About Vee Technologies

Founded in 2000, the company provides world-class expertise in outsourced business products and services. These range from finance and accounting, revenue cycle management (medical billing, medical coding, and insurance payer), engineering, information technology, logistics, as well as media monitoring and analysis.

Vee Technologies provides world-class F&A services in bookkeeping, accounts payables, accounts receivables, payroll processing, tax preparation, and global accounting. Owing Sona University, with 10,000 students and 200,000 alumni, helps to custom sculpt the training. Vee Technologies is an SSAE-16 certified and SOC 2 Type II audited company. It is also an ISO27001 and ISO9001 certified company. These are a testimony to the high priority that Vee Technologies places on quality, security, and data privacy.
