Ramsey St. Claire juggles his new role as husband to Gianna while at the same time running a million-dollar empire – St. Claire Architects. While work is important, everyone who knows Ramsey knows Gianna is his number one priority. She's his second chance at happiness, a chance he wasn't expecting but one he's grateful for.

He loves her.

More than life.

More than anything.

That's why he hangs on so tight. Analyzes her movements. Loves her hard. Watches her closely.

Expecting their first child and still working at the bakery, Gianna is a woman who wears many hats. One thing she can always count on is the support of her loving husband. But does running the bakery, preparing for her little 'cupcake's arrival and an unforeseen request from her estranged mother bring more challenges than she can handle all at once?
