

The Impact Factor Movie Kickstarter Launch

Ken McArthur wants your help to produce a life-changing movie.

PHILADELPHIA - May 24, 2019 - [PRLog](#) -- Ken McArthur, author, speaker, marketer, and now, screenwriter and producer, is asking for the public's help to produce a movie that shows that everyone makes an impact whether they want to or not.

According to McArthur, The Impact Factor Movie is a drama he has written about a diverse group of Philadelphia residents who try to live significant lives, as they collide in interweaving stories of impact. This feature film is a mosaic of interrelated characters in search of power, peace, forgiveness, and meaning in a very noisy world. This movie follows the style of movies like Crash, Magnolia and Grand Canyon by showing the connections between diverse people in a tight geographic area and the impact our small actions have on the people around us. The movie was inspired by a true story about a Jamaican immigrant that was told to him at one of his workshops.

"You can have your name in the credits for as little as \$10," he says. "But that is just the beginning. There are multiple rewards for investors. Every dollar counts!"
