

# The Back & Neck Relief Center MESSAGE REVOLUTION

## Massage Revolution Offer Best Treats This Halloween!

*Family-Owned Back And Neck Pain Relief Center Offers A Break from the Never-ending Tricks of 2020*

**LOS ANGELES - Oct. 7, 2020 - [PRLog](#)** -- Halloween is just around the corner, but with all the mask-wearing it seems like we've been celebrating this holiday for way too long. Quarantine and working from home has resulted in spending a lot more time sitting around and, unsurprisingly, a corresponding increase in pain in back and neck muscles. People are literally sick and tired of covid. Enough is enough. Massage Revolution has a natural way to deal with your pain: trigger point massage.

Trigger points are tiny muscle cramps that can really cramp your style. They're the kind of trick you'd rather skip. While pain in back and neck muscles is the most common complaint, trigger point therapy and neuromuscular massage work to alleviate the problem no matter where it crops up.

"The phone rings pretty much non-stop," says Michael Greenspan, owner of the top-rated Massage Revolution clinic in Manhattan Beach. "People are desperate for relief. We're so happy to be able to offer it with trigger point massage therapy"

Greenspan manages an elite team of over three dozen massage therapists, all specially trained in trigger point therapy and neuromuscular massage. Massage Revolution is the biggest and best neuromuscular massage clinic in Los Angeles, so don't feel like you have to put up with any more tricks from your aching body. Treat yourself today.
